

B.S.O.A

British Society of Orthopaedic Anaesthetists

July 30th, 2015

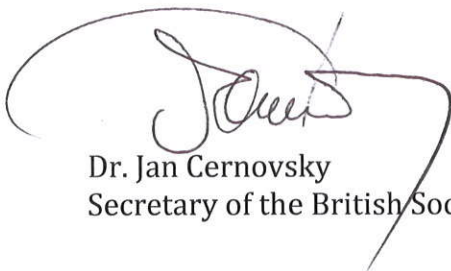

To Whom It May Concern:

Dear Sir/Madam,

I am pleased to recommend the association management services provided by Association House. The B.S.O.A started cooperation with Association House in January of 2015 and since then society services for our members have significantly improved. With their help, we were able to re-design our website, we currently release e-newsletters on a regular basis and moreover we offer our members new benefits via a members-only area on our website.

Association House manages and administers our society on a daily basis and therefore helps us to focus on the scientific side of our work. This I find to be the most valuable aspect of our cooperation.

Yours faithfully

Dr. Jan Cernovsky
Secretary of the British Society of Orthopaedic Anaesthetists
